Hi all,

Because you're not busy enough! Please QC/EDIT or in the case of perc write a new fact sheet for the transition. Note very short turn around time. I would like to see by COB Wednesday if possible. Thanks.

#2 – Prioritization – Stan QC NPCD

#5 – new chems - Iris/Gino QC CCD – please touch base w Madison/Rebeca

#11 – Perc – Yvette/Amy – this is a new one, not a revision; please follow guidelines from Alison below.

#12 – TCE – Rehan/Keith
#13 – NMP – Seema/Susanna W.
#15 – PFAS – Amy please QC whatever Hans has
#20 – NAS – Seema/Stam

Subject: Fire Drill (Due to OPPT IO NLT Thursday, 10 a.m.): Fact Sheets for Potential Transition

Hi folks –

With apologies for being the bearer of a fire drill, I'm writing to request your assistance with the development of the draft fact sheets for the presidential transition. Your divisions already gave input into the list of recommended fact sheets – we're now on to the development of materials stage. Below is a list of fact sheets we are now officially being asked to develop; the division assigned to lead development of those fact sheets; and any resources I had on hand that you may be able to pull from in development. With any luck, much of this will be some simple reformatting and minor updating.

Timing: Please review the list of assignments below and let me know ASAP if you think we've assigned you something that does not belong to you.

OPPT IO is asking that you please submit your best efforts at the assigned fact sheets to us on a rolling basis and as soon as possible - but by no later than **Thursday, 10 a.m.** We know that this is a lift on top of your current heavy workloads, and again apologize for the short amount of time that we have for this exercise! Please submit your fact sheets to both me and the OPPT IO staffer listed in the table below – and feel to work with us in the interim if you have questions. We'll be running through OPPT IO management review and then submitting up to the OCSP IO.

Required Format for Fact Sheets: Formatting should be the same as last cycle's transition fact sheets, a few examples of which I include below (and in the table as past fact sheets, if applicable). Note that most of them were 1 page – though a few were a bit longer (e.g. up to 2). Please also note that briefing materials may include information that is releasable to members of the public through a FOIA request, but should not include pre-decisional or deliberative information, information that is otherwise privileged, or other information that is exempted from disclosure under FOIA, the Privacy Act, or other law.

<< File: Lead Public & Commercial Buildings Rule.docx >> << File: PCBS in Schools and Daycares (Fluorescent Light Ballasts).docx >>

Previously Cleared Fact Sheets to Use as Resources Include:

- 2016 Presidential Transition Fact Sheets
- Most recent budget fact sheets (from this Spring)

- Fact sheets developed for Yvette (her own March transition binder when we on-boarded her this Spring or later 1-pagers developed as requested)
- Note: this does not include issue-specific 1-pagers sent up to the Administrator in the past few months, but those may also be useful resources

Thanks to everyone in advance for their work on this – and as always, please feel free to reach out with questions.

Best,
Alison
